08/04/2009

Dear TDS Customer,

Texas Disposal Systems and the City of Kyle are proud to announce a pilot program exclusively in the Amberwood and Indian Paintbrush subdivisions. As many of you heard in the last HOA meeting, you will be the first residents in Central Texas to have a three-cart system, including a trash cart, a single stream recycling cart and a compostables cart.

The 96-gallon trash cart and up to three trash bags will be serviced each Thursday. However, your recycling will now be serviced in a 96-gallon single stream cart and will include new materials such as box board, cardboard and non-styrofoam plastic containers marked #1-7. The single stream recycling cart will be serviced every other Thursday starting September 3rd. On alternating Thursdays, starting September 10th, the compostables carts and unlimited yard bags (brown fibrous bags sold at grocery and hardware stores) will be serviced. The new Compostables Program will include materials such as soiled paper, yard debris and brush. Every Thursday the trash cart and either the single stream cart or the compostables cart will be placed at the curb. Please see the reverse side of this letter for a reminder calendar that shows which cart goes to the curb with your trash cart on each pick-up day for the first two months. You can also find the information on the pilot three-cart program website, www.texasdisposal.com/singlestream.htm

The single stream and compostables carts will be delivered toward the end of August. The carts will be the same color as the green trash cart with the black lid, but the compostables lid will be green and the single stream lid will be earth tone. The single stream and compostables lids will include a reminder of what is and is not accepted in each cart. The pilot program will be at **no additional charge to you**. We encourage you to participate, however the program is not mandatory. Should you elect not to participate, please call (512) 421-1340 and we will not deliver the additional carts.

The pilot program will run from six to nine months and we will continually evaluate the effectiveness. We appreciate and encourage your feedback throughout the pilot program. Feel free to e-mail your suggestions and feedback, as well as your interest in continuing the program to threecarts@texasdisposal.com.

We look forward to rolling out this new and exciting program and we appreciate your participation and input.

Residential Single Stream Recycling and Compostables Program

from Texas Disposal Systems is coming to Kyle!

We are excited to announce the Single Stream Recycling and Compostables program to the City of Kyle. The City of Kyle will be the first to participate in this 6-month trial program. This program is being offered at no additional charge and if it is well received we will consider rolling it out to other communities throughout Texas. At Texas Disposal Systems, we are dedicated to reducing the amount of material that goes into the landfill. You will find detailed descriptions on the lids on what can be placed into each cart. Enjoy the three-cart system and please follow the directions to avoid contamination. Together we can keep Texas beautiful.

We will be delivering a 96-gallon Single Stream Recycling Cart and a 96-gallon Compostables cart in August.

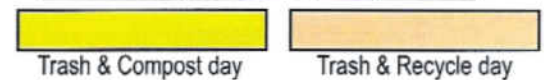

Attached to the cart will be detailed recycling day information.

SEPTEMBER						
Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
		1	2	3 Trash & Recycle Pick-up	4	5
6	7	8	9	10 Trash & Compost Pick-up	11	12
13	14	15	16	17 Trash & Recycle Pick-up	18	19
20	21	22	23	24 Trash & Compost Pick-up	25	26
27	28	29	30			

OCTOBER						
Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
				1 Trash & Recycle Pick-up	2	3
4	5	6	7	8 Trash & Compost Pick-up	9	10
11	12	13	14	15 Trash & Recycle Pick-up	16	17
